Producing Innovative + Turn-Key Identification Products

**PRIMARK** is your one stop shop for all identification products. We understand your business and know that labeling is often an afterthought, so our team is here to simplify the process and help you manage costs effectively!

# PRIMARK COILED CONDUIT MARKERS

PRODUCT 02: INFORMATION SHEET

*Labor Savings You Can't Ignore!*

**LABOR SAVINGS YOU CAN'T IGNORE!**

PRIMARK Coiled Conduit Markers are designed to make it quick, easy and cost effective to identify conduit systems in all types of environments. Let us help you keep costs down and get the job done, avoiding scrambling at the end of a project.

**FEATURES:**

- Made from rigid PVC Vinyl
- Available in all colors including color bands to meet any specifications
- Offered with or without text
- Can be made in any size and length
- Manufactured in pre-coiled sheets, you simply tear and snap around conduit

**ADVANTAGES:**

- Durable and long lasting
- Can easily be removed and re-applied
- Looks clean and professional, no messing with paint or tape
- No tools or prep required to install
- Easy to install especially in those tight spaces between conduit
- Perfect for ongoing maintenance of the building
- Owners appreciate the added value
- Reduces installation time and saves you money!

## STANDARD COLORS:

### STANDARD SIZE CHART:

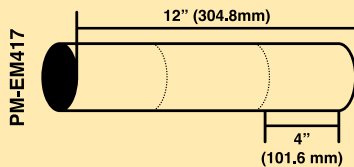

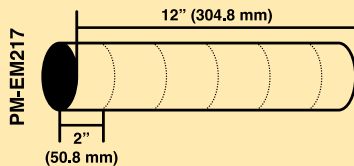

Markers are \*Kiss Cut (scored) to the finished size, that easily tear and snap around conduit.

**\*KISS CUT** - A kiss cut is a type of cut that only cuts through the first layer of a material making it easy to tear apart

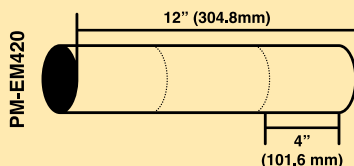

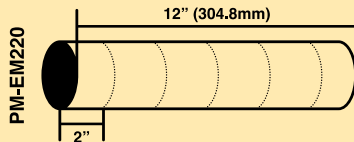

**8" x 8" (203.2 mm x 203.2 mm) coiled sheets**  
Fits 3/4" - 2" OD (19.05 - 50.8 mm)

**12" x 17" (304.8 mm x 431.8 mm) coiled sheets**  
Fits 2" - 4" OD (50.8 mm - 101.6 mm)

**12" x 20.5" (304.8 X 520.7 mm) coiled sheets.**  
Fits 2" - 6" OD (50.8 mm - 152.4 mm)

## PRODUCT DESCRIPTION:

Manufactured on flat sheets of either 16 or 19 mil PVC vinyl that are coiled for simple application. Our unique manufacturing process allows the marker to easily coil around the conduit. It comes in various sizes based on the total OD of the conduit.

Compared to traditional methods of using tape, paint or stickers, PRIMARK coiled conduit labels do not require any surface cleaning, preparation or tools for application drastically reducing installation time and labor costs.

## PHYSICAL PROPERTIES:

Material	Rigid PVC Vinyl
Material Thickness	16 mil, 19 mil. /0.016", 0.020" (0.4064mm, 0.4826mm)
Service Temperature Range	-40°F to 160°F (-40°C to 71°C) **
Flame Spread	ASTM E-85 Tested Rating at 25 or less
Water Resistance	Excellent
Chemical Resistance	Excellent
ASME A13.1 Standard	Complies
CAN/CSGSB-24.3-92 Standard	Complies
ANSI Z535.1 "Safety Color Code"	Complies

We can *customize* your conduit markers to any color, banding or legend specifications. *Just ask!*
